PROFESSIONAL SUMMARY

Ph.D. in Mathematics and Senior Prompt Engineer with extensive experience in Generative AI, Agentic Workflows, and RAG architectures. Proven track record of spearheading scalable AI systems, optimizing Large Language Model (LLM) performance, and leading cross-functional technical teams. Expert in transforming raw LLM capabilities into robust, enterprise-grade tools using Python, LangChain, and MLOps best practices.

WORK EXPERIENCE

Accrete AI

Senior Prompt Engineer

Mumbai, India

June 2025 – Present

- Spearheading the architecture and production deployment of scalable Generative AI systems, reducing hallucination rates through optimized RAG pipelines using Vector Stores (Chroma) and semantic search.
- Designing autonomous agentic workflows using Google's Agent Development Kit (ADK) and LangGraph, enabling multi-step reasoning and complex tool execution.
- Engineering high-impact prompt strategies (Few-Shot, Chain-of-Thought) for diverse LLMs (GPT-4, Gemini, Ollama), ensuring deterministic outputs in production environments.
- Developing high-performance backend microservices using Python and FastAPI to expose GenAI capabilities as scalable APIs.
- Managing end-to-end MLOps lifecycles, utilizing Docker for containerization and Kubernetes for orchestration to ensure high availability.
- Establishing organizational prompt governance and mentoring junior engineers on advanced Python patterns and prompt engineering techniques.

Infinity Analytics Pvt. Ltd.

Data Scientist (Project Lead Developer)

Mumbai, India

Sept 2021 – May 2025

- Led the design and deployment of an AI-powered cognitive search engine, transforming data interaction through advanced NLP and agent-based workflows.
- Defined system architecture integrating LLMs (OpenAI, Ollama), Vector Stores, and LangChain for automated SQL generation and document ingestion.
- Streamlined internal processes by automating data extraction, significantly reducing manual effort and operational costs.
- Managed cross-functional teams, overseeing timelines and CI/CD pipelines to ensure scalable, secure deployments.
- Acted as technical liaison, translating complex AI concepts into actionable business insights for stakeholders, directly contributing to revenue growth and improved customer satisfaction.

TECHNICAL SKILLS

Generative AI & NLP:

LLMs (GPT-4, Gemini, Llama), RAG, LangChain, LangGraph, CrewAI, Llama Index, Prompt Engineering (CoT, Few-Shot), Agentic Workflows, Semantic Search.

Languages & Core:

Python, SQL, R, C++, MATLAB, LaTeX.

Libraries & Frameworks:

PyTorch, TensorFlow, Keras, Scikit-Learn, Pandas, NumPy, FastAPI, Spacy, NLTK.

MLOps & Tools:

Docker, Kubernetes, Git, CI/CD, ChromaDB, Vector Stores, PySpark, Tableau, Power BI.

EDUCATION

Motilal Nehru National Institute of Technology Allahabad (MNNITA)

Ph.D. in Mathematics (Soft Computing & Medical Diagnostics)

Research Topic: "Design and Development of Soft Computing Diagnostic information system in Medical Science"

Prayagraj, India

Aug 2022

Motilal Nehru National Institute of Technology Allahabad (MNNITA)

Master of Science (M.Sc) in Mathematics and Scientific Computing

Prayagraj, India

June 2016

Calcutta University

Bachelor of Science (B.Sc) in Mathematics Honours

Kolkata, India

July 2014

KEY CERTIFICATIONS

Generative AI & LLMs: Generative AI with LLMs (DeepLearning.AI), LangChain for LLM Application Development, Advanced RAG with Chroma, Multi AI Agent Systems with crewAI.

Deep Learning & NLP: Deep Learning Specialization (Coursera), Natural Language Processing Specialization (DeepLearning.AI), Deep Neural Networks with PyTorch (IBM).

Data Engineering: Big Data Specialization (UCSD), Complete SQL Mastery.
